ABOUT ME

A dedicated and results-driven software developer with a strong technical foundation in Angular, Flutter, and Node.js, along with hands-on experience managing databases using MySQL and MongoDB. Skilled in building scalable web applications and cross-platform mobile solutions, with a focus on performance optimization, user experience, and effective problem-solving. Driven by the challenge of creating impactful solutions, adapting to diverse environments, and continuously expanding technical expertise. Currently seeking an opportunity to contribute to innovative projects and collaborate within a dynamic, multicultural team environment.

WORK EXPERIENCE

 **MAXBRIDGE SOLUTION LLP – KOLKATA, INDIA**

Business or Sector Information and communication | **Department** IT Department | **Email** business@maxbridgesolution.com |

Website <https://maxbridgesolution.com/>

FRONTEND DEVELOPER – 05/05/2025 – CURRENT

- Developed and maintained complex, scalable front-end architectures using **Angular (v2+ to v17)** and **TypeScript** for enterprise-grade applications.
- Wrote **high-quality, testable, and performant code** following best practices, ensuring smooth functionality and scalability.
- Actively participated in **code reviews**, testing procedures (unit/integration), and **collaborated with QA teams** to ensure application stability and reliability.
- Led small to mid-sized feature projects by **assigning tasks**, collaborating with teammates, and **monitoring progress and code quality**.
- Integrated robust **REST API** communication layers using Angular services, ensuring clean and maintainable data flows.
- Solved complex UI/UX and performance bottlenecks by applying **SOLID principles**, clean architecture patterns, and modular design.
- Worked with tools like **Git, Webpack, npm, Babel**, and **linters** to maintain a stable and efficient development pipeline.
- Maintained cross-browser compatibility and optimized **client-side performance**, resulting in a seamless experience across major platforms.
- Contributed to maintaining CI/CD workflows and deployment support, collaborating in **Agile/Scrum teams** for timely deliveries.
- Constantly engaged in **self-learning and upskilling**, adapting quickly to new technologies and frameworks such as **Nx** and **Docker** (where applicable).

JUNIOR APPLICATION DEVELOPER – 04/03/2023 – 04/05/2025

Developed scalable, interactive front-end applications using Angular, TypeScript, and HTML/CSS to enhance user engagement and responsiveness across multiple devices. Built cross-platform mobile user interfaces with Flutter (Dart) for Android and iOS, achieving 95% UI consistency across platforms and minimizing the design-to-development gap.

Applied responsive design principles and reusable components to streamline development cycles and reduce UI-related bug reports by 30%.
Designed and utilized RESTful APIs to manage secure data flow and integration between frontend and backend systems using Node.js and Express.
Employed regular expressions (Regex) for robust client-side form validation and data parsing, improving data quality by 40%.
Created and optimized database queries (MySQL, MongoDB) for dynamic rendering and filtering on the frontend, reducing data retrieval latency by 20%.
Analyzed and resolved complex UI issues, resulting in a 15% performance boost in application speed.
Collaborated with designers, QA engineers, and stakeholders in agile sprints to deliver user-centric interfaces aligned with product requirements.

ROLLING ARRAYS – MUMBAI, INDIA

Business or Sector Information and communication | **Department** SAP core | **Email** india@rollingarrays.com |

Website <https://rollingarrays.com>

ASSOCIATE CONSULTANT – 08/07/2022 – 09/12/2022

Developed and maintained dynamic, responsive Angular applications for enterprise-wide HR platforms, increasing efficiency by 20% through optimized UI/UX.
Improved front-end performance by 25% through code refactoring, lazy loading, and modular architecture, resulting in faster load times and smoother user interactions.
Integrated SAP SuccessFactors (Recruiting & Onboarding) with Angular front-end and SAP CPI to streamline HR processes and reduce manual effort by 30%.
Provided configuration and production support across various client implementations, achieving a 99% issue resolution rate to ensure high availability and user satisfaction.

AYANT SOFTWARE PVT LTD – KOLKATA, INDIA

Business or Sector Information and communication | **Department** IT Department | **Email** info@ayantsoft.com |

Website <https://ayantsoft.com/>

TEAM LEADER – 17/01/2018 – 05/02/2020

Developed and optimized front-end features using Angular, JavaScript, HTML5, and CSS3, reducing page load times by 30% and significantly enhancing UI responsiveness.
Built a scalable, component-based architecture for enterprise web applications, improving maintainability and reducing release-time bugs by 25%.
Integrated front-end interfaces with RESTful APIs and OData services for seamless communication with SAP backend systems.
Refactored legacy UI code to modern Angular standards, resulting in a 40% improvement in performance metrics (Lighthouse/Core Web Vitals).
Implemented cross-browser and mobile-responsive designs to enhance accessibility and user experience across 5+ device types and platforms.
Contributed to UI/UX enhancements by applying design system guidelines and optimizing usability based on end-user feedback.
Collaborated with QA to create robust test cases, achieving a functional and regression test success rate of over 95%.
Led front-end development discussions within Agile/Scrum teams to align outcomes with sprint goals and release timelines.
Mentored junior developers on Angular best practices and conducted code reviews, boosting overall team productivity by 20%.
Acted as a bridge between design and development teams by converting Figma prototypes into pixel-perfect, responsive UI components.

CONCENTRIX – KOLKATA, INDIA

Business or Sector Information and communication | **Department** IT Department Ticketing |

Website <https://www.concentrix.com/>

ASSOCIATE – 07/07/2017 – 06/12/2017

Maintained system software such as Amadeus for flight ticket management, ensuring smooth operations and reducing system downtime by approximately 5%.
Developed and maintained Angular applications to enhance user interfaces in ticketing management systems, improving both system performance and user experience.
Handled customer inquiries related to flight bookings by providing accurate information and timely resolutions, leading to increased customer satisfaction.

Utilized CRM software to track productivity, maintain customer data, and support seamless cross-team communication.
Collaborated with teams to design and implement front-end solutions using Angular, optimizing functionality and ensuring responsive design across devices.

● **EDUCATION AND TRAINING**

06/05/2014 – 07/07/2017 Kolkata, India
BACHELOR IN COMPUTER APPLICATION Maulana abdul kalam university

Website <https://makauteexam.net/>

27/06/2020 – 15/08/2022 Kolkata
MASTER IN COMPUTER SCIENCE St Xaviers University

Website <https://www.sxccal.edu/>

● **LANGUAGE SKILLS**

Mother tongue(s): **BENGALI**

Other language(s):

	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken production	Spoken interaction	
ENGLISH	C2	C1	C1	C2	C2
HINDI	B2	B2	B2	B2	B2
GERMAN	A1	A1	A1	A1	A1

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

● **SKILLS**

GIT version control, Linux Command | Postman, IIS, Agile (SCRUM, KANBAN), DI Fwks, JIRA, SonarCube | VS-CODE | Android Developement (Android Studio)

● **HOBBIES AND INTERESTS**

Sports, Art, Culture, and Adventure

Passionate football player – inspired by the ambition and discipline of Cristiano Ronaldo; strengthened in teamwork, strategy, and competitive spirit.
Creative through singing and ukulele – promotes relaxation, positivity, and expressiveness.
One year of professional experience with the harmonium.
Connected to nature through camping – fosters problem-solving, mindfulness, and appreciation for a simple lifestyle.
